Dear Ms. Paske

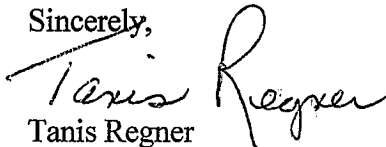

Re: Area Code 715

I support leaving area code 715 for northwestern Wisconsin. I realize you must add new area code numbers and I would not mind if I was in "the split". I just don't want overlay codes. Designate one area code for "here" and a new area code for "there."

The term is "area code", not "overlay code."

I have lived in several parts of the country where area codes have been changed due to the large demand for telephone numbers. So what if people need to reprint business cards, etc. This is common across the nation.

Sincerely,

Tanis Regner
